RICHARD LOHRMANN

THE WEST END NURSERY
Between Fifth and Center Sts.
SAN RAFAEL — CALIFORNIA

TO CORRESPONDENTS

I take pleasure in presenting herewith my twenty-eighth annual catalogue and price list.

It has been my endeavor to list, as much as possible, only the very best and most satisfactory of both Fruit and Ornamental Trees and Plants. Whatever I am not able to grow on my own grounds I procure from the most reliable Nurseries. My Nursery is located between Fifth Avenue and Center Street, one block north and two blocks west from the Telephone Building, corner Fourth and H Streets, San Rafael.

I do not give lengthy descriptions of plants, as it is far more satisfactory to see the plants actually growing in the nursery. I have specimen plants of a number of varieties of trees and shrubs; therefore invite my customers and friends to visit the nursery whenever convenient.

Business hours from 8 a.m. to 5 p.m., except Sundays.

I warrant all trees and plants to be healthy, and true to label, but having no control over them after delivery, I do not GUARAN-TEE them to live and thrive, nor will I replace them, except any tree or plant should prove untrue to name; but in no case will I be liable for any sum greater than the original purchase price.

My customers are requested to notify me immediately of any error that may have occurred in filling their order, so that the same may be rectified, as I desire to give satisfaction to all who favor me with their order.

All orders delivered free in San Rafael and surrounding towns; a small charge for packing, to cover cost of material, will be made for all orders shipped by express or freight. All articles are at the risk of the purchaser, after being shipped.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference. All bills payable first of the month.

STATE SALES TAX: .

When ordering, please add to the amount of your order the California State Sales Tax, 3 cents for each dollar.

NOMENCLATURE

All plant names, both botanical and common, have been revised to conform with 1928 edition of "Standardized Plant Names" if listed in that book. The only exceptions are a few uncommon items and novelties which that book does not include. This standardized nomenclature should unquestionably be followed by everyone from now on.

Fruit Trees

The varieties listed here are the best and most satisfactory for this locality. Prices for new varieties, and larger quantities on application. The trees are 1 and 2 years old, average 4 to 6 feet in height. Trees of bearing age, 3 to 4 years old, approximately higher in prices.

Planting Season:

January to March, except Citrus trees, which should not be planted until the heavy winter rains are over, after February 15th.

PRICES:

4 to 6 foot grade, 50 cents each; \$4.50 per 10, except where noted. APPLES:

Summer: ..Gravenstein.

Jonathan, Yellow Bellflower. Fall:

Winter: Delicious, Yellow Newton Pippin, Spitzenburg, Winesap,

Siberian Yellow, and Red.

APRICOTS:

Blenheim, Hemskirke, Royal, Tilton.

CHERRIES:

Black Tartarian, Bing, Royal Anne, Early Richmond, Mayduke.

NECTARINES:

Boston, Stanwick.

PEACHES:

Freestone: White:

Alexander, Briggs Red May, Hale's Early, Strawberry,

Freestone: Yellow:

Early Crawford, Foster, J. H. Hale, Late Crawford, Elberta,

Muir, Salway.

Clingstone: Phillips, Tuscan.

PEARS:

Summer: Bartlett, Flemish Beauty.

Fall: Beurre Clairgeau, Beurre d'Anjou, Beurre Bosc, Beurre

Hardy, Doyenne de Comice. Winter: Winter Nelis.

PRUNES:

Imperial, German, French, Hungarian.

PLUMS:

European varieties: Damson, Green Gage, Jefferson, Washing-

ton, Yellow Egg.

Jap varieties: Burbank, Wickson, Satsuma, Santa Rosa.

QUINCE:

Pineapple.

NUT TREES

ALMONDS:

Nonpareil, I. X. L.—50c each.

WALNUTS:

Franquette, Paynes Seedling—\$1.25, \$1.50 each.

FILBERTS:

Barcelonia—75c to \$1.25 each.

MISCELLANEOUS FRUIT

FIGS:

White Adriatic, Brown Turkey, Mission, Kadota-50c.

GUAVAS:

Strawberry, red and yellow, pot-grown—50c.

OLIVES:

Mission—50c each; Sevillano—\$1.50 each.

PERSIMMONS:

Hachiya, Fuju, very large fruit, extra fine ornamental trees **--**\$1.50, \$2.00.

POMMEGRANATE:

Wonderful, bushy plants—75c and \$1.00 each.

CITRUS TREES

PRICES: Balled, 4.5 ft.—\$2.50 each.

Grown in boxes-\$3.00 to \$3.50 each.

ORANGES:

Washington Navel, Valencia Late, Ruby Blood.

LEMONS:

Eureka, Villa Franca.

LIMES:

Bears Seedless \$3.00 each.

POMELOES, or Grapefruit. Marsh's Seedless.

TANGERINES:

Dancy—\$3.00 each.

DWARF CITRUS VARIETIES:

Otaheiti Orange, Meyers Chinese Lemon, Rangpur Lime, potgrown-75c, \$1.25 each.

GRAPE VINES

European Table Varieties:

Black Monucca, Black Muskat, Grosse Guilleaume,

Golden Queen, Lady Finger, Muscat of Alexandria, Thompson's Seedless—20c each; \$2.00 per doz.

American Varieties:

Agawam, Concord, Delaware, Green Mountain, Isabella, Niagara, -25c each; \$2.50 per doz.

BERRY VINES

BOYSEN BERRY:

A new berry, twice as large as Youngberries, of excellent quality, jet black, very prolific—25c each.

BLACKBERRIES:

Corey's Thornless, Mammoth—15c each; \$1.50 per doz.

RASPBERRIES:

Cuthbert, Raneree—10c each; \$1.00 per doz.

YOUNGBERRIES:

One of the choicest berries in appearance, flavor and general usefulness—15c each.

ARTICHOKES: Strong divisions—15c to 25c.

RHUBARB: Giant Crimson, Strawberry—15c to 25c.

STRAWBERRIES:

Banner, Progressive or Everbearing—30c per doz; \$2 per 100.

ESPALIER FRUIT TREES.

Trained Wall Fruit or Espalier Trees have been grown in European gardens for at least a century, mostly because of climatic conditions, and for lack of space for orchard trees. They can be grown successfully on a very narrow strip of ground, against a wall, in a patio, or as a border. They are easily protected during their flowering season against frost and rain, and against insects and birds at the time of ripening of the fruit which is, under proper care, more delicious and highly colored than orchard-grown fruit. We have a limited number of young trees two and three years old, available this season:

APPLES: Bellfleur, Delicious, Newton Pippin and Winesap. PEARS: Beurre Hardy, Clapps Favorite. PLUMS: Jefferson, Reine Claude. Peaches: Alexander, Crawford, Mayflower, Elberta, CHERRIES: May Duke, Montmorency.

PRICES according to number of branches—\$4.00, \$6.00, \$8.00. Packing charges, \$1.00, \$1.50, per tree extra.

Conifers

Coniferous Trees are the grandest trees in existence. A good many of them are natives of the Pacific Coast, and therefore at home in our climate. Though the more expensive varieties are of rather slow growth, until well established in the ground, they will grow into the finest specimen trees for the lawn in a few years. Prices are for small and medium-sized plants. Quotations for larger plants on application.

Planting Season:

Field-grown plants from October to March. Pot-grown and boxed plants from September to June.

Evergreen Trees and Shrubs

Broad-leaved Evergreens vary in size from the largest trees to the smallest shrubs; unlike the coniferous Evergreens, whose flowers are insignificant, most of these excel in brilliancy and floriferousness, others through their shining berries and foliage. These plants give our California garden and parks their distinctive feature.

Planting Season:

October to April; pot-grown plants of this class can be planted any time during the year.

ABELIA—	Pot- grown		Balled or boxed

Deciduous Tress and Shrubs

The best street and avenue trees are decidedly deciduous trees; they will give the necessary shade in summer and admit sunshine in winter. In this class are also the most gorgeous spring and summer blooming shrubs. Deciduous weeping trees are beautiful specimen trees for the lawn.

Prices are for field-grown plants, except where noted.

Planting Season:

November to March, after leaves commence to fall and before they commence to bud in spring.

they commence to bud in spring.

Flowering Fruit Trees

Among the flowering trees the flowering types of our fruit trees are undoubtedly the most popular. Beginning with the flowering Almonds, Apricots and Plums in February and March, followed by the gorgeous double flowers of the Peaches and numerous types of Crabapples in April, and finishing up in May and early June with a splendid display of the Japanese Cherries, will mean a continuous blossom time at home in your garden.

Planting Season:

January to March, or earlier, if stock is available, and the weather permits.

Single, pink, 5 to 6-foot stem	2.50

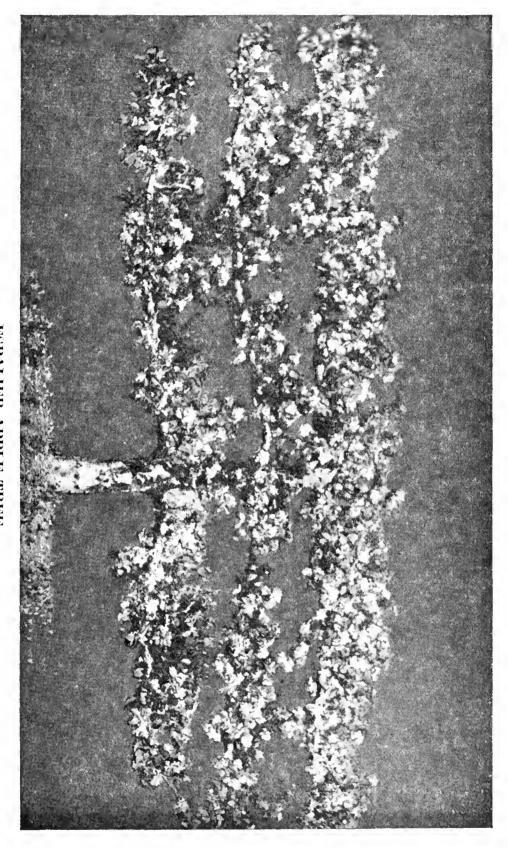

Climbing Plants

A most useful class of plants, for covering bare walls, trellises, unsightly fences, to plant on verandas and pergolas, in rockeries and as a ground cover under trees.

Planting Season:

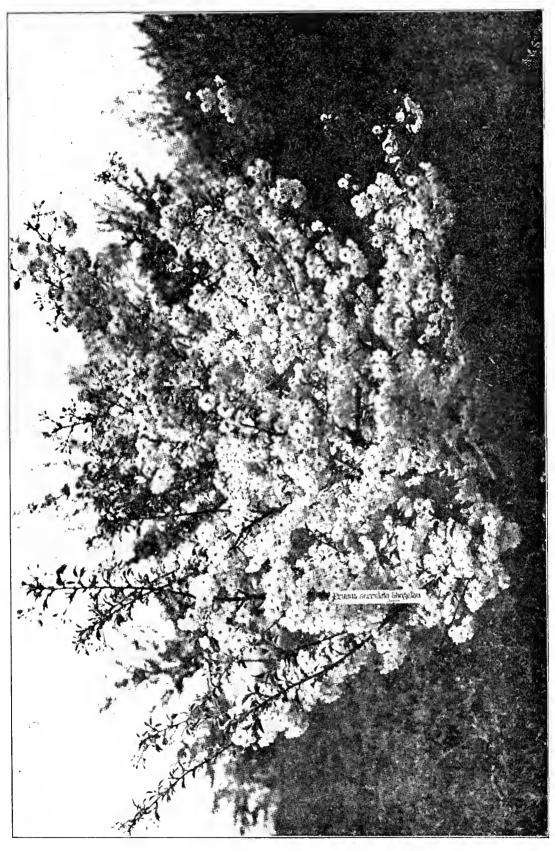

October to April, except Bougainvillea and the tender Passion Vines, which are better planted after the danger of heavy frost has passed after April 1st.

Roses

The "Queen of Flowers" gives best results when planted in a sunny location and in a fairly heavy sediment soil. Be sure that the plants are set deep enough, at least one or two inches deeper, than where the bud has been inserted. Prune rather severe during the winter months, December to February, except the spring blooming climbing Roses like Banksias, Cherokees and Ramblers. Prune these roses right after the blooming season is over, never in the fall.

Budded Roses are more vigorous and give better results than stock grown on its own roots, with the exception of a few climb-

ing and strong growing varieties.

Planting Season:

January to March, also in the late fall, if stock is available.

PRICES

FOR STRONG TWO YEAR OLD FIELD GROWN BUSH AND CLIMBING ROSES, No. 1 GRADE,

60 cents each

\$5.00 per 10, except where otherwise noted 45 cents each, our selections, and for quantities over 25 and more.

BUSH ROSES

Autumn:

An unusual color combination of deep burnt orange and pink, streaked red, glossy foliage.

Betty Uprichard:

Delicate salmon-carmine, reverse a deep coppery carmine.

Columbia:

A beautiful pink.

Condessa de Sastago:

A fiery copper and rich gold—75c.

Catalonia ·

New, velvety orange scarlet—\$1.00 each.

Conqueror:

A rich orange yellow bud, opening out to a brilliant, fiery flame color.

Cuba:

Semi-double, bright vermillion scarlet.

Dame Edith Helen:

Brilliant pink, perfect full flowers, very fragrant.

Duchesse of Athol:

A rich shade of golden bronze flushed orange, one of the best of the newer varieties.

Duchesse of Wellington:

Saffron yellow, an old rose, but always in bloom, tea scented.

A dazzling deep scarlet red, very fragrant.

Etoile de Holland:

Large brilliant red.

General McArthur:

Bright scarlet-red, vigorous grower.

Golden Emblem:

A rich, deep golden yellow, one of the very best.

Golden Ophelia:

Golden center, outer petals pale yellow.

Gruss an Koburg:

Delicate apricot yellow, shaded coppery pink, very fragrant

Hadlev:

One of the best dark velvety reds.

Hoosier Beauty:

A rich, deep velvety crimson.

Heinrich Gaede:

Very large buds on strong stems; color, a rosy copper-\$1.00 each.

J. Otto Thilo:

Perfect buds, double flowers of rich rose-pink.

Lady Hillington:

A clear apricot yellow, long bud.

Los Angeles:

Flame pink, shading to coral and gold.

Marie Dot:

Reddish salmon yellow, opening into a luminous salmon pink, overlaid with a coppery sheen.

Margaret McGredy:

A marvelous color of orange vermillion.

Miss Rowena Thom:

Large blooms of rose-pink, shaded a dusky gold.

Mrs. Charles Russell:

A deep carmine, well formed bud.

Mrs. Herbert Stevens:

Large pure white, perfect form. Mrs. Sam McGredy:

A glowing combination of red copper and orange, changing to pink, suffused with gold.

Ophelia:

Salmon flesh, shaded rose.

Padre:

Rich coppery scarlet, shaded yellow at base.

President Hoover:

A charming combination of cerise-pink, flame, scarlet and yellow, strong stems.

Susan Louise:

Lovely light pink; continuous bloomer.

Rose Marie:

Clear rose pink, long buds.

Rouge Mallerin:

A magnificent rose of brilliant red-\$1.25 each.

Shot Silk:

Orange cerise, suffused with gold.

The Queen Alexandra:

Vermillion, shaded old gold.

Talisman:

Orange red, opening into a golden yellow bloom, stained with coppery red and orange rose.

Vaterland:

A profusion of dark crimson flowers, strong bushes-75c each.

SINGLE ROSES

Austrian Copper:

Brilliant coppery red.

Dainty Bess:

Delicate pink, with contrasting wine-red stamens.

Irish Fireflame:

Deep orange, flushed crimson.

Isobel:

Carmine red, shaded orange.

CLIMBING ROSES

Belle of Portugal:

Delicate soft pink, tinged with salmon; strong grower.

Climbing Dainty Bess:

A charming climbing form of the single bush rose-75c.

Climbing Duchesse of Athol:

The good qualities of the bush type are repeated in this new Climber; a brilliant orange bronze—75c each.

Climbing Golden Emblem:

A vigorous grower, golden yellow flowers.

Climbing General McArthur:

Bright scarlet red, a free blooming variety.

Climbing Lady Hillingdon:

A vigorous climber, apricot yellow.

Climbing Hadley:

Deep crimson, fragrant. Climbing Hoosier Beauty:

Velvety red, fragrant flowers.

Climbing Mme. Cecile Brunner:

A sport of the well known "Baby" Rose, salmon-pink, strong grower.

Climbing Yellow C. Brunner:

Golden Yellow, orange center, Baby Rose.

Climbing Talisman:

A sport of the popular Bush-rose, identical in color and foliage, but a strong grower.

Lamarque:

Pure white, tinged with lemon yellow at center.

Marechal Niel:

Flowers deep lemon yellow, full and globular, very fragrant.

Mme. Gregoire Staechelin:

Of unusual beauty, pearlpink, petals prettily curved, of Spanish origin.

THE FOLLOWING VARIETIES BLOOM ONLY IN THE SPRING

American Pillar:

Pink, white eye, strong grower.

Banksia:

In two varieties, double white and double yellow, almost evergreen.

Beauty of Glazenwood:

Locally known as the San Rafael Rose, a gorgeous color combination of copper, carmine and salmon.

Cherokee:

Double white, one of the best evergreen hedge-roses.

Mermaid:

Large single pale sulphur-yellow flowers, with golden amber stamens.

Pauls Scarlet Climber:

Vivid scarlet, in a class by itself.

Ramona:

The single red Cherokee Rose.

Silver Moon:

Large creamy white flowers, extremely strong grower.

Tausendschoen:

Semi-double soft pink flowers produced in clusters.

STANDARD ROSES

TREE SHAPED, NO. 1 GRADE, ON STOUT STEMS 3½ TO 4 FEET HIGH: \$2.25 EACH

\$2.00 each for quantities of ten and more.

PATENTED ROSES

Nationally advertised patented Roses are sold subject to the Patent Laws of the U.S. I have none of the varieties in stock but can obtain the same from a reliable firm, licensed to distribute them, but NO GUARANTEE as to the qualities of the Roses sold. The price ranges from \$1.00 to \$2.50 each, cash with order.

Dahlias

The following list of Dahlias comprises the cream of numerous varieties in commerce. They have been selected for their superiority in purity of color, peprfection of form, length of stem continuous blooming, etc.

Planting Season—May 1st to June 15th.

Water Lilies

The culture of Water Lilies is so simple that it might almost be said that "they just grow themselves." Their modest requirements are sun, water and rich soil. In deciding on a place for a natural water-garden one is naturally led to select a low spot.

It is not very difficult to construct an artificial pool. Any location that is available would be satisfactory, provided it is ex-

posed to the full sun.

COMANCHE

An artificial pool should be made as large as possible, and 2 feet deep. In California it is advisable to build the bottom and side walls of 6-inch water tight concrete. Make an artificial pool as natural as possible and avoid stern lines and too apparent masonry. A generous planting of moisture-loving plants around the edge of the pool or pond will furnish an added charm to the plants in the pool itself.

One foot of water over the soil is the most desirable depth in artificial pools. Some will thrive in shallower water, but few will stand a depth exceeding 2 or 3 feet. A continuous flow of water tends to keep the temperature in the pool low and must be avoided. After the pool is once filled it is only neessary to replenish that which evaporates.

A few Goldfish will serve to destroy the wrigglers that hatch into mosquitos and larvae of other insects.

NYMPHAEAS

COMANCHE—	
Rich apricot, changing to a deep coppery bronze, a sunset	
color, each	1.00
CONQUEROR—	
Brilliant crimson, shaded white, each	1.00
ESCARBOUCLE—

MARLIAC YELLOW—	
A vigorous grower; bright canary yellow, each	1.00
MASANIELLO—	
A charming pink variety, quite distinct, each	1.00

PAUL HARIOT— A magnificent variety, distinctive color: canary yellow, shaded with pink, which suffuses the flower entirely as it	
grows older. A good grower, each	1.00
SOMPTUOSA	
Large, deep rosy pink, each	1.00
SUNRISE—	
Very large sulphur yellow flowers, leaves mottled brown,	
each	2.00
W. B. SHAW—	
Wide open flowers of a rich rose pink, very fragrant, each	1.50

TROPICAL WATER LILIES

Sooner or later every owner of a pool wants to grow a few tropical water lilies. Considering their intensive blooming season, the quality of their flowers, on strong stems above the water, they are really the aristocrats of the lily pool. Young plants have to be started in the greenhouse, and should not be planted until the middle of May. It is best toset out new plants every year. Order early. Prices, according to variety, from \$1.50 up.

NELUMBIUM NUCIFERA

The most strikingly beautiful plant in the aquatic field is the Lotus or Nelumbium. The large concave leaves, resembling green shields, are borne on stout stems high above the water. The flowers are of exquisite rose pink, like giant Tulips, changing to creamy tints when fully open.

The brown seed-pods, which remain long after the flower is

gone, are very artistic.

Hardy Perennials

Herbaceous plants are indispensable for filling in and planting amongst shrubbery, in the rock gardens, for the old-fashioned perennial border, etc. Most varieties, after once planted, will live and bloom without much attention, for many years. Prices are for field-grown, potted or transplanted seedling plants.

Planting Season:

October to March, as early as possible, whenever the soil is in good condition.

Summer Flowering Bedding Plants

The plants are mostly Annuals, raised every year from seed or cutting; several are of a hardier nature, and under favorable conditions will stand our California winters. Prices are for plants grown in boxes or $2\frac{\tau}{2}$ and 3-inch pots.

PLANTING SEASON:

April, May and June, except for the winter and early spring bloomers, like Pansies, Winter Stocks, Wallflowers, etc.; plant those in October and November.

Insecticides and Fungicides

Arsenate of Lead, for leaf-eating insects and Codlin Moth-1 lb., 35c.

Bordeaux Mixture, for mildew and fungus—1 lb., 35c.

Iron Oxide, for the control of snails and slugs.—10 lbs. 65c.

Lime and Sulphur, a dormant winter spray—1 lb., 35; 5 lb. \$1.45.

Red Arrow, for Aphis, red spider, Mealy bug, etc. 1 oz. 35c.

Snarol and Taps, snails, cutworms, etc—1½ lbs., 25c; 4 lbs. 60c.

Sulphur, for dusting grape vines, red spider, etc.,—3 lbs., 35c.

Volck, an oil spray for mealy bug, scale and red spider—Pint, 50c; quart, 75c.

Lawn Grasses

TO MAKE A LAWN:-

The ground should first be deeply spaded, adding commercial fertilizer or manure, and should then be leveled to the proper grade. A good plan is to let it lay for several weeks and water thoroughly. This will give a chance for many of the weeds to sprout and they can be hoed off as they come up. After the weeds have been removed, rake the surface smoothly and sow the seed broadcast at the rate of one pound to 150 square feet, except where noted.

After the seed has been sown, it should be covered with about one-quarter inch of good mulch, such as Imported Peat. This is very essential as it is necessary that the surface be kept continually moist, giving the seed an opportunity to germinate. After the first cutting it should be fertilized and in order to maintain a deep velvety green turf a dressing should be applied at least three

Th 10 The

times a year.
